milk cows and young stock it is equal to alfalfa hay or corn silage. Next year Mr. Mann will plant six acres to soy beans.

County Clerk C. J. McCarty, who as the reward for six years of hard work in office, got a swift kick from his party last spring, will after the expiration of his term of office conduct the large McNeel flour mill at Millpoint. He is already in charge of the mill and will devote such time as he can spare from his office to keeping the mill running. He did a big day's grinding Wednesday. He is an expert miller and machinist, and a first class blacksmith, and skillful in most every line of work. On the whole, we think that Clerk McCarty will be happier with a different kind of machinery than he has lately been monkeying with.
